Edwards & Blake

At the heart of every meal

When food works well, so do your staff.

AT EDWARDS & BLAKE WE UNDERSTAND THAT GOOD FOOD IS VITAL TO LIFE. SINCE 1998 WE'VE PUT FOOD QUALITY AT THE HEART OF ALL WE DO WITH FRESH, HEALTHY, NUTRITIOUS INGREDIENTS AT THE CORE OF OUR BUSINESS FROM DAY ONE.

S erving good food also improves team spirit in your own business. More of your staff will stay in to eat, which encourages conversation and helps create a social hub. Keeping your people happy is important and the better the food, the more productive they become.

It's why we only source produce from local suppliers, mostly within a fifty-mile radius. We like to know precisely where our meat, milk, eggs and our fresh fruit and vegetables are raised and grown. So do our customers. For this reason we get to know our suppliers and they get to know us. Which is why only the highest quality, seasonal produce makes it to our kitchens.

It's our passion for only the best that takes those ingredients, adds a pinch of love and lashings of inspiration, expertise and experience and turns them into dishes we're proud to call our own.

our people are our secret ingredients. They must have energy, enthusiasm and a zest for our industry. From preparation to service, we look for individuals who are passionate about delivering delicious food and who can work in a busy catering environment and still keep smiling. A tall order,

for sure, but our people never fall short. Like our founders Shirley Edwards and Caroline Blake, our people get things done and done well.

As Shirley and Caroline are visionaries, so too are the rest of our team.
Encouraged to contribute innovative

ideas and fresh suggestions for new recipes and menus, our people are truly united by a love of good food and a desire to bring the highest standards to staff catering across the region.
