## Edwards & Blake

At the heart of every meal

## When food works well, so does your business.

AT EDWARDS & BLAKE WE UNDERSTAND THAT GOOD FOOD IS VITAL TO LIFE. SINCE 1998 WE'VE PUT FOOD QUALITY AT THE HEART OF ALL WE DO WITH FRESH, HEALTHY, NUTRITIOUS INGREDIENTS AT THE CORE OF OUR BUSINESS FROM DAY ONE.

S erving good food is also better for you and for your workforce. Your employees will benefit from an improved diet and real value for money in the price of their meals, and you'll notice levels of productivity rising. Because the happier your staff, the harder they work, and that's why food matters.

It's why we only source produce from local suppliers, mostly within a fifty-mile radius. We like to know precisely where our meat, milk, eggs and our fresh fruit and vegetables are raised and grown. So do our customers. For this reason we get to know our suppliers and they get to know us. Which is why only the highest quality, seasonal produce makes it to our kitchens.

It's our passion for only the best that takes those ingredients, adds a pinch of love and lashings of inspiration, expertise and experience and turns them into dishes we're proud to call our own.

An appetite for quality catering? Please get in touch.
